PROFESSIONAL SUMMARY

I am a Python Full Stack Developer and a B. Tech graduate in 2026. I build websites and we applications using React, Django, JavaScript, and SQL. I developed CodeNest, A coding platform, and two React applications that are live on Netlify. I am looking for a Full Stack Developer role where I can use my skills to build useful applications

TECHNICAL SKILLS

- **Languages:** Python, SQL, HTML5, CSS, JavaScript
- **Frameworks & Libraries:** tailwindcss, React.Js, Django REST
- **Soft Skills:** Problem-Solving, Team Collaboration, Time management

PROJECTS

TaskFlow | Full-Stack Task Management Application — GITHUB

Technologies: React.js, Django REST Framework, Python, MySQL, Tailwind CSS

- Developed a full-stack task management application with REST API integration and MySQL database storage. Implemented task CRUD operations, title search, and filtering by status and priority. Built a responsive UI with form validation, error handling, loading states, and user notifications. Used Git and GitHub for version control and project management.

CodeNest – Competitive Programming Platform — GITHUB

Technologies: React.js, Django REST Framework, Python, MySQL, Tailwind CSS

- Developed CodeNest, a web-based coding platform where users solve programming problems, participate in contests, and track rankings. Built interactive interfaces for problem browsing, code submission, and performance tracking. Implemented asynchronous submission workflows and responsive UI for a smooth user experience

Portfolio Website (React) — LIVE

- Fully responsive portfolio website built using React to showcase my skills, projects, and resume. Includes project cards, resume download option, and a contact form. Deployed on Netlify
